9. Additional Risk Factors:

There are various risks associated with the Notes including, but not limited to, exchange rate risk, price risk and liquidity risk. Investors should consult with their own financial, legal, and accounting advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. Holders of the Notes should also consult with their professional tax advisors regarding tax laws applicable to them and, in particular, with respect to tax laws relating to debt securities in bearer form.

The Bank may hedge its obligations under the Notes by entering into a swap transaction with the Dealer or one of its affiliates as swap counterparty. Assuming no change in market conditions or any other relevant factors, the price, if any, at which the Dealer or another purchaser might be willing to purchase Notes in a secondary market transaction is expected to be lower, and could be substantially lower, than the original issue price of the Notes. This is due to a number of factors, including that (i) the potential profit to the secondary market purchaser of the Notes may be incorporated into any offered price and (ii) the cost of funding used to value the Notes in the secondary market is expected to be higher than our actual cost of funding incurred in connection with the issuance of the Notes. In addition, the original issue price of the Notes included, and secondary market prices are likely to exclude, the projected profit that our swap counterparty or its affiliates may realize in connection with this swap. Further, as a result of dealer discounts, mark-ups or other transaction costs, any of which may be significant, the original issue price may differ from values determined by pricing models used by our swap counterparty or other potential purchasers of the Notes in secondary market transactions.

Additional Information Regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the "Savings Directive"). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a "Member State") that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Federal Income Tax Matters

A) United States Internal Revenue Service Circular 230 Notice: To ensure compliance with Internal Revenue Service Circular 230, prospective investors are hereby notified that: (a) any discussion of U.S. federal tax issues contained or referred to in this Pricing Supplement, the Prospectus or any other document referred to herein is not intended or written to be used, and cannot be used by prospective investors for the purpose of avoiding penalties that may be imposed on them under the United States Internal Revenue Code; (b) such discussions are written for use in connection with the promotion or marketing of the transactions or matters addressed herein; and (c) prospective investors should seek advice based on their particular circumstances from an independent tax advisor.

B) The “Tax Matters” section of the Prospectus and any tax disclosure in this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

C) Due to a change in law since the date of the Prospectus, the second paragraph of “—Payments of Interest” under the United States Holders section should be read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on your circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

D) Due to a change in law since the date of the Prospectus, the fourth paragraph of “—Purchase, Sale and Retirement of the Notes” under the United States Holders section should be read as follows: “Capital gain of a noncorporate United States holder that is recognized in taxable years beginning before January 1, 2013 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year.”
