

Your Solution

When You Need Answers

When you have a question about a medical condition, treatment option or symptom, Best Doctors will take the time to listen and an expert physician will provide a personalized response. No needless worrying, wondering or wandering the web for answers.

How the Process Works:

1. Contact Best Doctors and a member of the Best Doctors clinical team conducts an in-depth discussion with you to determine your questions and gather any necessary medical information.
2. Your questions and medical information are sent to a Best Doctors expert for review.
3. You'll receive a report with the expert's answers, including suggestions for treatment options.

“ My doctors can only spend 5 minutes with me and therefore, I could not get all my questions answered. Best Doctors talked to me for 30 minutes and answered a lot of my questions.”
