

Environmental Impact Assessment

Wastewater Rehabilitation Program

Trinidad and Tobago - (TT-L1026)

The general objective of this operation is to continue partnering with the Government of the Republic of Trinidad and Tobago in the effort to improve the environmental conditions of T&T by decreasing the uncontrolled discharge of untreated wastewater into the environment. The specific objective is the strengthening of the Water and Sewerage Authority (WASA) through the implementation of institutional and policy reforms which will enable WASA to provide efficient and cost-effective services and improve the existing wastewater management services in the San Fernando and Malabar catchments.
