Total			700,000	Prepared by		Date: September 15, 2019 Updated version: April 14, 2021		Total In-Kind contribution of \$30,000		
<p>(1) Grouping together of similar procurement is recommended, such as computer hardware, publications, travel, etc. If there are a number of similar individual contracts to be executed at different times, they can be grouped together under a single heading, with an explanation in the comments column indicating the average individual amount and the period during which the contract would be executed. For example: an export promotion project that includes travel to participate in fairs would have an item called "airfare for fairs", an estimated total value of US\$5,000, and an explanation in the Comments column: "This is for approximately four different airfares to participate in fairs in the region in years X and X1".</p> <p>(2) Goods and works: CB: Competitive bidding; PC: Price comparison; DC: Direct contracting.</p> <p>(3) Consulting firms: CQS: Selection Based on the Consultants' Qualifications; QCBS: Quality and cost-based selection; LCS: Least Cost Selection; FBS: Selection under a Fixed Budget; SSS: Single Source Selection; QBS: Quality Based selection.</p> <p>(4) Individual consultants: ICQ: International Individual Consultant Selection Based on Qualifications; SSS: Single Source Selection.</p> <p>(5) Country system: include selection Method</p> <p>(6) Ex-ante/ex-post review: In general, depending on the institutional capacity and level of risk associated with the procurement, ex-post review is the standard modality. Ex-ante review can be specified for critical or complex process.</p> <p>(7) Technical review: The PTL will use this column to define those procurement he/she considers "critical" or "complex" that require ex-ante review of the terms of reference, technical specifications, reports, outputs, or other items.</p>
