Select those indicators that will best show the success of the project.

**ANNEX I: RESULTS MATRIX**

**PROJECT TITLE**  
**PROJECT NUMBER**

In this column, include intermediate and final results (outcome) indicators. Less is more.

Only include intermediate targets if they are intended to be tracked in the project. Note that the listed figures should be cumulative. If the baselines and intended targets of some indicators are unknown at the approval stage, explain in the “Notes” section how a baseline and targets are intended to be set during project implementation.

Include data sources, as well as other information that will be useful understand what the indicator means, how it is calculated and collected.
